DETAILED ACTION

Allowable Subject Matter

1. Claims 1-6,24-25,27, and 29-32 are allowed. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or fairly suggest the claimed invention.
2. Specifically, no teaching or obvious suggestion was found of the limitation " a manifold for containing a liquid, the manifold having a plurality of nozzles, each of the nozzles having a channel and a plurality of outlets operatively connected to the channel... a conduct connecting the reservoir to the manifold can flow from the reservoir through the channel of each of the nozzles and through the outlets" as claim 1.
3. No teaching or obvious suggestion was found of the limitation " a manifold for containing a liquid, the manifold having a plurality of openings, wherein the manifold further comprises a plurality of spaced tips that contain the openings and wherein each of tips has a central longitudinal axis and the central longitudinal axes of the tips converge at an area in front of the tips; a channel connecting the reservoir to the manifold so that liquid in the reservoir can flow from the reservoir to the openings" in combination with the other recited limitations of claim 24.

4. Claims 2-6,25,27, and 29-32 are allowed by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: US Pat No 6,764,720 issued to Pui et al, US Pat No 6,800,849 issued to Staats, and US Pat No 6,803,568 issued to Bousse et al are considered relevant to the claimed invention.
